

Help Me Grow Elevator Speech: Families

Help Me Grow is a first-of-its-kind resource for families with children birth through age eight. Specially trained staff are ready to answer your questions about your child and their development, as well as to provide you with the information, resources and support you need to help your child grow up healthy to reach their full potential.

Help Me Grow also offers easy-to-use questionnaires that focus on key areas of development: communication, problem solving, personal-social, as well as fine and gross motor skills. These are helpful tools so you know if your child is developing on track.

If you or your child's teachers, caregivers, or doctors have concerns about your child's behavior, development, learning or well-being, call 2-1-1 and ask for *Help Me Grow* or sign up online at www.helpmegrowfl.org. We will connect you to services and supports in your community.

We'd love to have you participate in the program so that you can better support you and your child.
