

# Help Me Grow<sup>®</sup>

## NATIONAL NETWORK

# WASHINGTON, DC

### PLANNING & IMPLEMENTATION STATUS

To date, the Department of Health, Child and Adolescent Health Division has continued to work on implementing the infrastructure for the District wide *Help Me Grow* DC.

### OUR HMG SYSTEM

*Help Me Grow* DC continues to strengthen its core components through work with the National Office, affiliates and collaboration with community partners.

In developing our central access point, our focus is on validating a specialized database of resources specific to the needs of our District families with children ages 0 to 5, and prenatal women.

We are looking forward to continuing our outreach with providers and community leaders as we work towards our Fall 2016 soft launch.
