WHAT IS PARENT TV?

At ParentTV we know that you want to help parents at your organisation to raise happy and healthy children. To do that, you need a way to equip them with tools and strategies to address the parenting issues that come their way.

The problem is there is not enough time or expertise for one person to address all of the issues families may encounter which can make you feel overwhelmed when trying to be who your families need. We believe parents should feel equipped and supported to raise great kids.

We understand how exhausting it can be trying to give parents the tools that make a difference which is why we have created an innovative online platform with over 37 world leading experts sharing hands on strategies to support the children in your care.

HERE'S HOW WE DO IT:

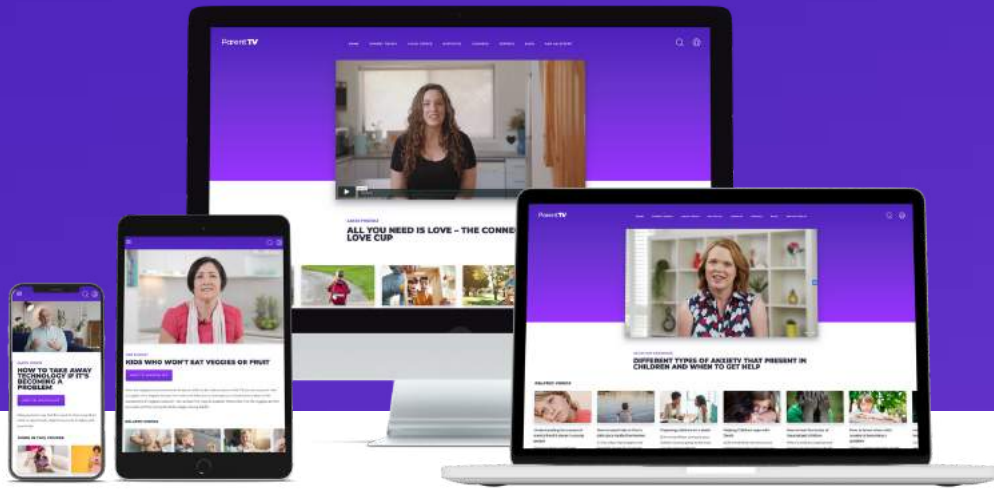

1. Join the ParentTV community
2. Support staff development
3. Share the content with parents
4. Change the lives of children

So, create a ParentTV account for your organisation so you can stop feeling overwhelmed and have confident educators, encouraged parents, and successful children.

TESTIMONIALS

*ParentTV is a must have for all parents and educators. With so many parents relying on information from the internet, it is great to have a platform where **respected experts share expert information**. It is great for teachers to be able to share this information with each other and parents.*

CHILDCARE CENTRE DIRECTOR

*ParentTV allows me to easily share content with parents I work with. It's also good because the **clips are short, easy to understand and are delivered by experts in the field**.*

WELLBEING OFFICER
