

Pediatric Entry Questionnaire

Help Me Grow Onondaga is a free, confidential program that provides parents and caregivers of children birth through age five with information about child development, promotes developmental surveillance and screenings, and connects families to community resources.

By providing the following information, you are agreeing to speak with a Help Me Grow representative about your child's development. If you choose to provide an email address (optional), we will also send you a free developmental screening tool called the Ages and Stages Questionnaire.
