

JOIN THE BUILDING EXPERTISE IN MODEL IMPLEMENTATION (BEMI) 2023 LEARNING COMMUNITY

Hosted by the Help Me Grow (HMG) National Center, the Building Expertise in Model Implementation (BEMI) Learning Community provides guided group technical assistance on launching the HMG Model, including how to prepare for implementation, details on the HMG Core Components and their associated Key Activities, the various ways these have been implemented in affiliate states and communities across the HMG National Network, and approaches to refine and improve HMG efforts once operational.

BEMI provides HMG affiliates with a unique, formal venue to learn about the Model itself and become familiar with an array of approaches to implementation, including both best practices and potential challenges to anticipate and pitfalls to avoid. In addition to its function as a learning space, BEMI offers the opportunity to network and build valuable connections with others at a similar point in their HMG implementation efforts.

Participation

BEMI is ideal for new HMG systems, new staff joining established systems, as well as longer-standing affiliates that have had significant changes in management/structure and could benefit from a “refresher” on the basics of the HMG Model.

Participants who attend live are able to ask questions of presenters, as well as connect with and learn from peers working on HMG across the country. Participants will also have ongoing access to an online BEMI Hub with recordings and curated materials.

Content & Structure

BEMI consists of six, 1.5 hour-long sessions and three, 1 hour-long office hours over the course of 2023.

Sessions topics will include:

- Leadership teams and work groups
- Establishing a Centralized Access Point
- Strategies for Family and Community Outreach
- Getting started with Child Health Care Provider Outreach
- Data Collection and Analysis: Preparing for your first Fidelity Assessment
- An introduction to the HMG Model, system-building, and continuous quality improvement

Session structure will include:

- Presentations
- Opportunities for networking and small group connection
- Full group discussions and Q&A

Pricing

\$9,000 per participating system (multiple people can participate from each system). Discounted pricing packages are available for multi-system states interested in having multiple systems participate.

Schedule

BEMI sessions will launch in February 2023 and take place approximately every other month over the course of 2023. Systems are encouraged to sign up by January 31st, 2023.

Please contact Melissa Passarelli, Associate Director of Implementation and System Building, at mpassarelli@connecticutchildrens.org to join.
