American Academy of Pediatrics recommends developmental screening at 9, 18, 30 and 48 months. Dr. Paul Dworkin will review best practices in developmental screening including:

- Who benefits from developmental screening?
- What types of services/community resources exist?
- Why focus on the Help Me Grow model?
- How do health partners get involved?

Paul Dworkin is Executive Vice President for Community Health at Connecticut Children's Medical Center and professor of pediatrics at the University of Connecticut School of Medicine. For the past 15 years, he served as physician-in-chief at Connecticut Children's and chair of the Department of Pediatrics of the UConn School of Medicine. He has authored more than 175 publications in the fields of developmental-behavioral pediatrics and general pediatrics. He is the founder of Help Me Grow.
